PROJECT GOOD MORNING

What Is Project Good Morning

Project Good Morning is a program designed to assist community residents who do not have regular daily contact with relatives, friends or neighbors. The program allows residents to make daily contact with the police department to ensure that they are ok, and further allowing for their independence and ability to stay in their homes. This program allows family, friends or neighbors the security of knowing that the individual is having regular daily contact.

How Project Good Morning Works

Project Good Morning participants complete an application for admittance to the program. This application is an agreement by both parties involved to abide by the rules of the program. The application also gathers specific information that will be needed in an emergency situation.

Project Good Morning participants call into the Dispatch Center, 603-253-9756, between 9:00 a.m. and 10:00 a.m., seven days a week, Monday–Sunday. If the participants are going to be away from home, in the hospital, leaving very early in the day, etc., they may simply notify the department in advance with the dates away, and call into the Dispatch Center upon their return.

At 10:00 a.m., dispatchers will verify that all program participants have called in. Dispatchers will then attempt to call participants by telephone to assure their well-being. If the dispatcher cannot reach the participants by telephone, a police officer will be dispatched to the participant's residence. The police officer will make every attempt to verify the participant's well-being.
